Descriptions:

The Terra Cotta Warriors and Horses, the modern China's greatest archaeological discovery, which silently guarded the tomb of China's First Emperor for over 2,200 years. In 1974, a local farmer uncovered the first of three massive earth and timber vaults, while digging a well. The extensive excavation, still in progress, has yielded over 6000 life-sized terra cotta warriors, each individually sculpted, with the physical characteristics of the humans they were modeled after. Archers, infantrymen, horses and bronze chariots have also been unearthed. A Circle Vision documentary is available on site.

Wild Goose Pagoda, a Tang Dynasty landmark. This seven-story pagoda was initially constructed in 652 AD to house the Buddhist sutras brought back from India by the monk, Xuan Zang, who later translated them into Chinese. His pilgrimage to India is immortalized in the Chinese classic – The Journey to the West.

Tang Dynasty stage show, a feast of culinary and cultural delights with a special Dumpling (dim sum) banquet followed by a fascinating Tang Dynasty stage show. Indulge yourself in this remarkable show and reinvent your China dream with a trip back in time to the world of China's Golden Age and come back to the present with a greater understanding of this amazing time.
